I AM
NCR LABOR

Optimize scheduling to reduce costs and spur productivity

NCR Labor provides restaurant operators with all the tools they need to manage staffing. This back office labor management application provides tools managers can use to analyze labor data and schedules, enabling them to cut costs and boost productivity. Benefits include:

Empowering decision making

Access the data and reports you need on a moment's notice to make the right scheduling decisions. View labor time, costs and percent of sales for all of your sites.

Fine-tuning scheduling

Compare scheduled versus actual labor with a wide variety of analytical tools to understand true staffing requirements. Forecast future needs accurately, while enforcing company labor standards.

Reducing labor costs

Eliminate unnecessary overtime, which can hurt restaurant margins. Use operational intelligence to focus staff productively on key tasks during the work day.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 300 million transactions daily across the retail, financial, travel, hospitality, telecom and technology industries. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 26,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries.

Improving customer service

Reduce the amount of time spent on employee administration. Managers can spend more time coaching employees, enabling front-line staff to deliver superior customer service.

Supporting employee transfers

NCR Labor enables employee borrowing and transferring between sites. Deploy your employees to where they're most needed, while avoiding any paperwork headaches.

Streamlining payroll

Track worked and nonworked hours and export payroll data to third-party applications easily and quickly.

Enabling employee access to schedules

NCR has introduced new mobile scheduling functionality that allows employees to subscribe to receive schedules, schedule change notifications, and special schedule notes from the manager - via email and/or text.

Accessing mobile schedules from the POS terminal

Employees can also view their schedules on any POS terminal and print them from the POS printer. They can also access and change their mobile schedule information, like their email address. Managers can also use this functionality to automatically print employees' schedules when they clock out.

Key Features

- Provides a wide array of analytical tools to optimize staffing

- Offers critical reports that summarize labor time, cost and percent of sales

- Produces interactive and easy-to-read schedules in graphical formats

- Supports employee borrowing and transferring among sites

- Auto-completes government forms

- Exports custom payroll data, including worked and non-worked hours
